MAIN FACS "TIPS & TECHNIQUES"

IMPORTANT: **This issue contains important operating information for all users of RSTARS and ADPICS. Please distribute promptly.**

In this issue:

- **MAIN FACS SOFTWARE MODIFICATION – TRAVEL VOUCHER HEADER ENTRY SCREEN (PCHL1900)**

The following modification will be in production on Thursday, May 24, 2007:

MAIN FACS SOFTWARE MODIFICATION — TRAVEL VOUCHER HEADER ENTRY SCREEN (PCHL1900)

Previously, when a change was made to certain fields on the PCHL1900 screen and the duplicate edit indicator was 'Y', the error message T351 (DEPART AND RETURN DATE FALLS WITHIN DEPART & RETURN DATE OF xxxT72xxxxx) was issued in error. The software has been modified to prevent the incorrect issuance of the T351 error.
